tor Lord of a surplus of \$67,000,000.

Sees \$373,000,000 Surplus.

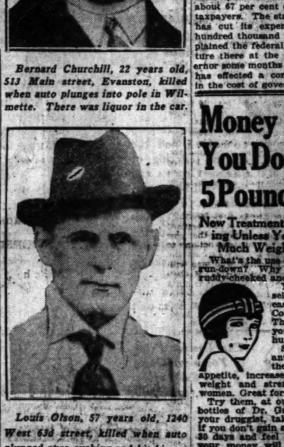

Director Lord riso made the prediction that the coming year will show a surplus of \$373,000,000, the figure on which administration leaders in congress are basing their hopes for tax reductions. The present surplus is attributed to heavier revenue returns and greater receipts by the post-office department.

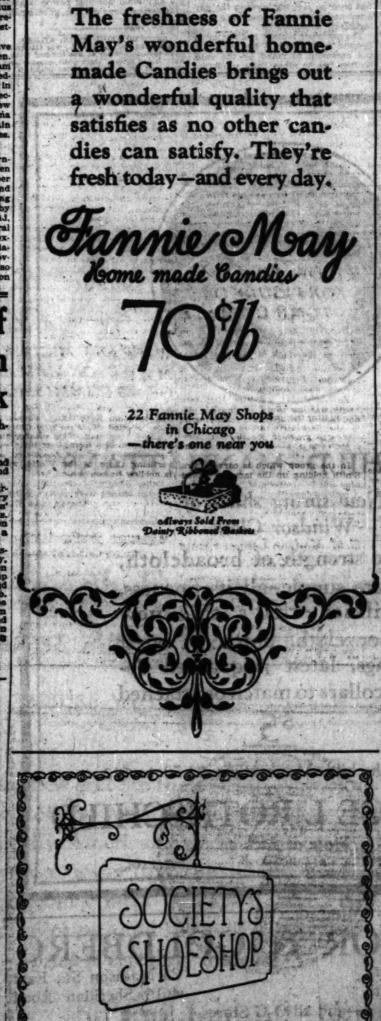

President Coolidge is said to have been greatity pleased also when Gen. Lord informed him that the program and example of economy set by the federal government is being followed in a number of states. The budget director returned today from a trip to New England and expects to visit Indiana and Illinois later this week to explain the federal plan of reducing expenses.

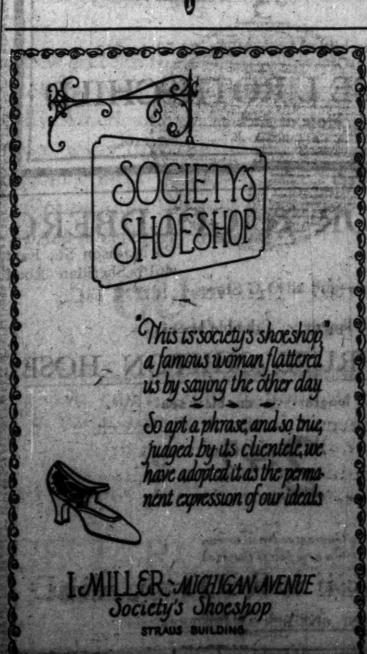

Places Blame on State.

The federal share of total government expense, Gen. Lord said, has been cut from 69 per cent in 1921 to 33 per cent this year, leaving the states and municipalities credited with spending about 67 per cent of the total paid by taxpayers. The state of Maie, he said, has cut its expenditures by several hundred thousand dollars since he explained the federal plan to the legislature there at the request of the governor some months ago. Michigan also has effected a considerable reduction in the cost of government operation.

This store has become so well known for its fine Oriental Rugs that some people forget we also carry a very select line of Imported and Domestic Chenilles and Wilton Carpetings.

And it's a great advantage to select your plain colored carpetings, and the necessary Oriental Rugs to "brighten" them, at the same time, and in the same store. For by doing so you can be sure you will get just the contrasts you wish.

Among the select qualities of Chesille and Wilton Carpetings we feature are:

Imported Broadloom Wilton (Sq. Yd.) \$15 9 to 15 foot widths, in taupe, tete de negre and jade green.

Broadloom Scotch Chenille (Sq. Yd.) \$12.25 A \$16.50 value. But we are unable right now to supply all widths in some colors—hence this reduction.

Our lines are now broken, so we have reduced this quality from \$11.50 to \$9.25. At this price it is a most unusual "buy."

## PUBLICITY, CRIME, AND

THE COURTS.

The Tribund yesterday reported that "as the first important step in a program designed to reflect in the mirror of the public press a dignified administration of justice" the judges will prohibit the taking of photographs in all courtrooms. The news department has signified its willingness to acquiesce cordially. But the editorial department begulesce cordially. But the editorial department begulesce to may that as a step towards impressing the public mind with the dignity of courts it is not only not important but it is of very doubtful value. A British judge commenting on a recent sensational trial in London said that publicity is the servant of the isw. The assertion hardly needs argument. The camera, the telephone, the delegraph, and the judges in banishing the camera are going backward, not forward.

The COURTS.

PARDONS DENIED.

We hope the refusal of a considerable grist of administration that the refusal of a considerable grist of applications for pardon is a reliable indication that the and to been sore. He had suffered occasionally from an acidosis head-ache, but it had not been severe. He had suffered occasionally from an acidosis head-ache, but it had not been severe. He had suffered occasionally from an acidosis head-ache, but it had not been severe. He had been fairty irritable and pessingstic at times, but his family had endured the times, but his family had endured the time. The public is gradually realising that the limit without strain and the boars had not been tempted to fire him. A short high time. The public pusting in the public pusting in the public pusting in the public opinion is justified in considering whether a board of pardons is not to be classified as one of the recognized agencies in a scientific system of organized crime in a proper in the prope servants of justice, and the judges in banishing the camera are going backward, not forward.

Meanwhile, we congratulate the present board where justice dispenses with publicity there is likely to be as little of justice as publicity, and we people of Illinois are beginning to take seriously that tissues of the body have not been drawn on. unate community that more publicity is needed, ess, more attention to courts and trials, and

The modern metropolitan courtroom for eco-omic reasons is so small a place as to exclude all t a handful from attendance on even the most portant trials and this in our opinion is not sirable. If the judges wish a monastic seclusion they might order the electric lights, the steam radiators, and their own telephones out and stop the elevators. Photography in the courtroom should not be a nulsance and the flashight we think should be prohibited because it is alarming and unpleasant and tends to encourage theatrical grouping and posing. The quiet taking of somes from court proceedings will not offend the dignity of any court if the proceeding itself has dignity. Much nonsense has been and is being emitted as to the sensational publicity given crime by the press. There are always people who want to abolish an evil by denying its existence and to avoid danger by shutting their eyes to it. But press treatment of crime is sensational because crime in the source of the sensational because crime is sensational because crime in the source of the sensation of the sensatio

tional criminality possible and the inertia of national publicity and the only thing that has stirred the judges to go so far even as to banish the camera from the courtrooms is sensational

in the scandalous predicament of this community's defense from crime proves the need of publicity and more publicity. The banch and the bar would better remove the mote from their own eyes before trying to expel it from the eyes of the press. To begin a program for impressing the dignity of the courts upon the public with an order against picures, if it is advisable at all, which we do not elieve, is like attacking a prairie fire with a squirt gun. The dignity of justice can only be impress ciency of the courts and that is woefully pro

problem which must be solved by expert knowledge. This the judges have and the inyspers have and the juvery have made a good deal more vigore our and thoroughouing edicet to solve it than they have they are in a poor postton to critician the press or any other agustey involved indirectly. One take soliton. From the hear come the men who it en the bench. The community has come to soly the recommendations of the bar in making spectrum of the bench. #### THE WORLD COURT AND THE LEAGUE.

Whether it is expedient or not, important or not, hat the United States shall adhere to the so-called world court, there can be no reasonable qui that the overwhelming bense of the American peo-ple is against adherence unless it can be clearly and completely divorced from the league of na-

ple is against adherence unless it can be clearly and completely divorced from the league of nations.

Except for a voluble minority of sentimentalists and impractical theorists the American people have even less liking for the league of nations than when they first approved the senate's refusal to walk into that trap. Some say that you carried a hoe, And some whisper that you drove A dull plow, rending a warm furrow All the way to Grundy. . . . But I only saw you walking

Round horses bend their thick thighs Over many a cloudy acre, Straining toward the cool storm Of the sunset, with leather
And wooden mountains creaking behind.

But you are waiting and whistling Among thundering blue wings On west... on west...

I don't want to go blind until I get old.

If you will answer my questions I will give you a remedy for cramps in the legs. There is no harm talking about ladies' legs, for you see them on the street every day. The remedy is as follows:

Wind a bandage around the leg two or three times. A garter will do. When the cramp comes snap the garter or bandage a few times. The pressure on the muscles will make the cramping stop.

## Do you know the tremendous difference Flax-li-num makes in houses?

Flax-li-num for Warmth in Winter Coolness in

Never before, in all building history, has it been possible to erect houses so healthfully comfortable, so well protected against heat and cold, and so economical in fuel. Modern houses that are heat insulated with Flax-li-num are WARM in winter.' They don't

become chilly over night, even if the fire is low or goes out. Floors are not cold and draughty, hallways and north rooms no longer unheatable. Secondary was an an

These good houses are COOL in nmer, even the top story rooms, for one inch Flax-li-num in the ceiling or roof stops the heat from coming in. Flaxli-num lines thousands of family ice boxes for just that purpose. It stops the passage of heat and cold as rubber stops the passage of electric current.

And fuel bills in Flax-li-num houses are so much lower that they startle and amaze people familiar only with the old type of house. Fuel savings alone pay the cost of Flaxli-num in a very few years. And Flax-li-num goes on saving and saving, as long as your house stands.

These are the plain facts about houses lined with Flaxli-num. Hundreds of local houses have Flax-li-num in the outside walls and in the roof. Before you build or buy see the owners of some of these houses. Find out for yourself the tremendous difference Flax-li-num makes in houses.

Cost of Flax-li-num Surprisingly

Many people are misled as to the cost of lining a house with Flax-li-num. The savings and comfort Flax-li-num brings are so great people assume it must cost a great deal to use this good material. But Flax-li-num is not expen-

A six-room house can be completely lined with Flax-linum for less than the cost of a davenport or two armchairs. One can line the roof with one inch Flax-li-num for the price of a good refrigerator. And though Flax-li-num is over twice as thick as ordinary materials used for that purpose, the difference in cost on your home is so slight the larger fuel savings usually pay it back the first year.

Most Effective Heat Insulation Known

tests the most efficient of heat insulations. It has behind it fifteen years of experiment upon every type of material. It is thick, durable, everlasting. Workman can easily apply it in walls and ceiling. It is rendered rat

and vermin proof during manufacture. Fifteen years ago Flax-li-num had passed every laboratory test. Science approved Flax-li-num as being the most effective building material for stopping loss of heat. The experience of thousands of home owners since has born out this laboratory approval. Today there are more houses lined with Flax-li-num than with all other heat resisting materials combined.

Flax-li-num Made in Right Thickness and Form

Flax-li-num for house roofs, where 62 percent of the heat losses occur, is full one inch thick, over twice as thick as materials commonly used for that purpose. The evidence of science and the experience of home owners everywhere proves this extra thick material

necessary at that point. For walls it is full one-half inch thick. These are the thicknesses tested as correct in the laboratories, and the thicknesses that Flax-li-num comes in delivered to you on the job.

And Flax-li-num is durable; guaranteed to stay in place in wall or roof as long as your home stands. It is flexible can't warp or buckle. Yet it is not flimsy can't teer or

~ To Start Building 50 Ft. Lots Only \$14500

Two Lots to a Customer - 11/2 Blocks from Station

THIS is a special offer—an opportunity to purchase a fifty-foot residential lot at far below the market price. For only \$145.00 (two to a customer) you can own a choice lot one and one-half blocks from the depot, close to stores, schools and churches, in one of the prettiest suburbs west of Chicago. Read the details here of this remarkable offer—which includes building assistance and a free book showing plans of thirty-six homes and bungalows.

We are an old established building company. Last year we built 50 homes. This year we expect to build many more. We build at low price. But to keep prices low we build in quantity, and save on large scale operation. So now to encourage building in our new-suburban development we are offering fifty-foot building lots at the low price of \$145.00.

ing 36 Plans given

In the Heart of Town

This is the opportunity you have waited for—a chance to own your own home, away from city noise and dirt, on a large lot in a beautiful suburb. Every residential lot is ideally situated. No lot is smaller than 50 feet. Ogden Avenue borders the property. And note this important fact: This is not outlying property. These lots are in the very heart of this well known suburb, across the street from beautiful homes, one and one-half blocks from the main station.

ot advertise the name of this suburb b we have other property here at higher prices. After the expiration of this three-week offer it will be impos-sible to buy at this low price. Only by immediate action can you secure these fifty-foot lots at — this low price. \$145.00 pays in full for these lots.

We Build for You

Our interest is chiefly to interest prospective builders—but you are not obligated to build either now or later unless you wish. If you decide to build, we will furnish specifications and prices. Nineteen lots have already been reserved for building, and improvements will be started this spring. Construction is now

Free Book

Whether you intend to build or whether you buy for investment this is an opportunity that can never come again. This will be an ideal home community. All houses must be set back 40 feet from the lot line, and no house may be built here costing less than \$5,000.00. If you buy only for investment you can always sell quickly when your lot is in a refined home community and when the purchaser of your lot can secure building assistance if desired. At this low price you could sell your lot at a substantial profit almost immediately.

\$60 Cash - Balance Terms

Only a small cash payment is required to purchase one of these lots at the low price of \$145.00. You can pay for your lot or your home in small payments monthly. This is the meet liberal offer in the history of real estate. A chance to own your own home and a chance for big profits. But you must set quickly. This offer expires in three weeks, and positively no lots will be sold at this low price after that time. Mail the coupon now for location and full information.

## The Spirit of the UNIVERSITY of CHICAGO In Our Window Display

THE importance of the endowment campaign in behalf of L Chicago's foremost educational institution is pictured in a striking display in one of the show windows of this Store.

With a few inanimate articles—drawings of the Medical School and Hospital and of the Ida Noyes Hall, flanked by volumes of two new books just off the University of Chicago press—a decorative artist has mirrored the University's position in the community's cultural life, and has created an impressive still-life

Books and drawings emphasize the University's great program of advance. The books are new productions, of interest to all in whom the civic spirit is strong. One, "Great University Memorials," is a handsomely-illustrated volume on the world's famous educational structures, with particular reference to the plans for the development of the University of Chlcago. It bears a thoughtful foreword by President Coolidge.

The other book is "The Story of the University of Chicago," by Thomas Wakefield Goodspeed, prominent in the development of the institution since its founding. It is a sketchy, readable story of the University's romantic history brought down to date. These two books are available in our Book Section.

The Window Display is well worth observation.

What we set out to do in the first year:

What we have accomplished:

We set out

to build a circulation of unquestionable advertising value

We have made it many time so good that—on calibrial merit alone—it secures repeat cash sales.

That's why we haven't had to use circulation tricks. No price cutting, clubbing offers or present with subscriptions. 99% necessarily and key sales prove that Liberty is bought for its editorial a deep. Under these powers restrictions Liberty has built its not paid circulation of more, than 1,0 More than 38,000,000 copies were sold for each the first year.

We did it!

We set out

to direct this circulation so as to make it a tangible sales force

We did it!

to find out who reads Liberty

On Petersery I, 1915, "blin I" questionnires were mailed to \$1,000 people. 10,134 were returned. The results prove that the occupations and uses of Liberty readers coincide with most active laying. The answers to the question "What Occupation?" showed that the greatest persecutes of our readers are housewires, 20%. 15% are executives, 17% clerical, 13% professional. The answers to the question "What is your age?" showed that 35 years is the average age of Liberty readers.

We found out!

to make it impossible for an advertise-ment in Liberty to be buried

In Liberty every stary or article is completed before another starts. The invitation to read is as potent at the back as it is sit the front. The reader naturally looks through the whole magazine. Advertisement is Liberty are set "bunched" in an advertising section in the back. Beginning with the first article, they parallel aditorial matter throughout. An advertisement in Liberty can't be buried! Therefore, there are no position disappointments.

4th This is the Announcement in the 1050 Build-an-Ad Contest Branigar Bros. Co.

The most vital economic factor in the life of the average Chicagoan is NOT Food, and NOT Shelter, and NOT Employmentbut it IS Transportation. There is plenty of food, and the money with which to buy it. There are jobs for all who want jobs. There are even enough houses to go around, and to spare—if they were conveniently enough situated with regard to the geo-

they were conveniently enough situated with regard to the geographic distribution of employment.

Only in the rarest cases can it be possible that Chicagoans are denying their
stomachs. Practically all of us have fairly comfortable homes. But 3 out
of every 4 of us are victims of Chicago's peculiarly—and enormously—tragic
transportation "jam"—a condition resulting from our meteoric and hodgepodge growth, for which no single individual and no particular "interests"
can be held to blume.

Yet the fact of the sad inadequacy of Chicago's transportation facilities stands out like
a sore thumb; and a Million or more Chicagous lass a MILLION HOURS a day—
WORTH A MILLION DOLLARS DAILY—going back and forth to work.

The Hinge Stands for T-ra-n-s-p-o-r-t-a-t-i-o-n

Thinking people realize that Chicago is TWENTY YEARS BEHIND her Transportation Problem, and that very likely she will never catch up. But even very few of the wiscast appreciate the full importance to this city of ILLINOIS CENTRAL Suburban Electrification. To a large percentage of Chicagoans to whom the transportation situation is a menace of ever increasing proportions, it is—THE ONE WAY OUT.

Chicago will wake up to this fact on the completion of I. C. electrification by the end of 1926. Then there will be a stampede! Hundreds of thousands of people will seek to secure homes and housing along the right-of-way of this efficient "Mileaminute" service. There will not be room for all. Realty values will soar. Profits will be exceptional—and CERTAIN. Individuals who now look shead can, with prudence, run a shoe-string into a snug competence.

Situated directly on the ILLINOIS CENTRAL—and remarkably close in—is the wonderful new property which we are about to place on the market. It will be closer to Grant Park, on a time-and-transportation basis, than Rogers Park and other districts that are served by 30-minute Elevated Service. It is the one and only big fine development (460 acres) on the ILLINOIS CENTRAL until you

New York, May 11.-[A. P.]-Court orders for the exhumation of the bodies of two babies who died in the "baby arm" of Mrs. Helen Auguste Geisen-folk were issued by Supreme Court

Assistant District Attorney Ryan told merce will stage, Aug. 15 to 24, in the Grant Park stadium, are flooding protests into the offices of the Illinois Humane society, 1145 South Wabash avenue. The objectors fear the thought of injury to defenseless animals, like long horned steers and wild horses.

But the humane society will not make any effort to stop the big rodeo, which will be managed by Tex Austin and will attract cowboy stars from the entire west.

"There are cranks in every line of endeavor," said George A. H. Scott, secretary of the society and chairman of the national committee on rodeos of the American Humane society. "In humane work we encounter more cranks, perhaps, than in any other field. Most of these people who object to the Chicago rodeo have never seen a rodeo, know nothing, about rodeos in general, and even less about the Grant park show."

"Mr. Scott probably knows more shout the subject of rodeos from the humanitarian angle than any other man in the country. In the last several years be has attended dozens of such contests,

Gat Sea Food ~ For Your Health

Scientists are just beginning to find that sea food should be used more generally in our diet. Fish from fresh-water lakes and rivers will not do. Sea food consisting of oysters, shrimp and salt-water fish contains iodine in large quantities. This iodine is beneficial to the body, particularly to the brain cells, and it has the further quality of curing or preventing the growth of goitre, Every family in America should serve on its table sea food of some sort two or three times a week.

Canned Oysters Are Always Available

Oysters are the richest of sea foods in iodine content. You can get them in cans all the year 'round. The canned oysters put up at Biloxi by the Biloxi Canners come from sources that are uncontaminated and, in the process of packing, are heated above boiling point so that they cannot be anything but safe. The oysters packed at Biloxi are uniform in size and quality. You get full weight and a very fine quality of oyster. Canned oysters make delicious dishes. They can be used for stews, soups, stuffing for chickens, turkies and other fowls; for making pan roasts, patties, pies, etc. Oysters packed at Biloxi are sold at first-class grocery stores throughout America. Get a can today and try the recipe given herewith. Oysters are the richest of sea foods in

Larry had forgotten that this was the husband of the woman with whom had found shelter in Rene Lacrodaire's cabin. He had put that incident

"There's no future in it."
Franklin siniled.
"When did you discover that?" he asked.
"I've been thinking about it for quite a bit. I want to get where I'm king by the year, not by the day."
"Ready to settle down, eh?"
"No, to work up."
"Must be thinking of getting married."
"No, but I might get to thinking that way."
Again Franklin studied the bay, putting smoke into the gentle breeze.
"How long you been working in the woods?" he saked, at last.
"Since I was fifteen."
"Tried everything?"
"Just about."
"Ever look timber?"

More, it's to be a treasure hunt with altruistic motive, for it's being oranised by a group of young Bryn Mawr alumne, led by Mrs. Charles Edward Brown Jr., and including Mrs. Keith Carpenter, Mrs. Jack Dawson, Marion Holt, and the two fair Don-pelly sisters, Ted and Don (formally, if you please, Clarissa and Eleanor). The proceeds gleaned by the response to some three hundred invitations, which are being malled in a few days. while are being mained in a few days, will go to the Bryn Mawr music school endowment and auditorium fund. You who are invited will be bidden to come after dinner, with your roadster or larger motor car, your favorite friend (or friends), and start on the trail for the gold and "jools."

A select and enthusiastic audience rected the first performance of "Maitre Patelin" last evening at the Arts club. I have my doubts as to whether a fifteenth century French farce would be a successful attraction (as to box office receipts) in this day and age, but last evening's offering was an ex-tremely skilled production, with color and clowning and rhythm. Marion Gering, the young Russian who has landed on our shores from the Meyer-hold theater in Moscow, to form conets between the American and the Russian stage, directed the play, and did a fine job of it. Red Cross Reports on Tornado Relief;

Aided 5,022 Families Red Cross relief work in the tristate area devastated by the March 18 tor-nado has passed from the emergency to the rehabilitation stage, and in about 10 per cent of the cases has been permanently closed, according to the official report up to May 1, made public yesterday at the Chicago headquarters, 616 South Michigan avenue.

These figures show that between March 18 at 8 p. m. (five hours after the storm) to May 1 the Red Cross had registered 5,022 families as needing re-lief work. This number was divided into 354 in Missouri, 3,601 in Illinois, and 1,067 in Indiana. Of this number the cases of 456 are reported definitely closed and the cases of another 119 as awaiting only a technica director to be dismissed.

In hundreds of other cases partial noncy awards have been made and the cases are pending for more complete studying.

## she hasn't skipped one detail of fash-ion—this lively miss! Just observe the clever touches on this freek that seems to the uninitiated to be so nalve. the shoulders to suggest a yoke, is a cunning device. Then the bite taken out of the skirt in front just where the fullness stops shows extraordinary good taste in line adaptation. Of course, missy has borrowed the idea from grown-up methods of achieving variation at the juncture of skirt and waist—but, after all, what else is originality but clever rearrangement? Finally, it must be noted with what coquetry that arch line is executed by the tiny ruffles on the skirt. Green organdy is selected for this little frock and the ruffles are of self-material. It is a model designed for a child between the ages of 4 and 7.

## MAYWOOD GOLF CLUB COURSE WINS PRAISE

BY MORROW KRUM.

Thre's many an interesting angle of the royal and ancient game called gold to discuss this morning.

Take the new Maywood Gelf club, as an instance. This stamping ground for the tee box tourist was opened last summer on the Mannheim road west of the center of Chicago. One hundred and twenty acres of gently rolling land, eighteen holes ready for play, a club-house that has been greatly improved over last year, good dining room facilities, a cracking good program of events, and a membership of 275, all of which have been sold—O, there are many more reasons for talking about Maywood. It's a good golf club.

Praise for Membership.

membership is the finest bunch in town.

Then let us talk of the Illinois Seniors Golf association, of which Frederick W. Hill is a proud beoster. The L. S. G. A. second annual spring tournament will be held at the Country Club of Peoria on May 28. The seniors always have a good time at Peoria and are looking forward to the event with pleasure. The I. S. G. A. will hold their third annual championship tournament at Olympia Fields on Sept. 18. A. C. Allen advised that the date be reserved now.

The United States is well along in May its third year of industrial peace. With Oct the exception of the anthracite industrial peace. try, there is not at present a prospect of any important labor disturbance.

In that field, where a natural commodity monopoly meets a complete labor monopoly, we may expect the usual sparring, maybe a short strike, after which the consumer will learn what his assessment is to be.

There have been some wage readjustments in textiles, but an examination of those rates will show that they were so far above the average of labor's post-war try, there is not at present a prospect

gains that their slight deflation really has made no dent in the wage structure.

A consistent critic of trades unionism remarks of William Green, who now has had a chance to show his hand as president of the A. F. of L.: "He is evidently a gentleman of the old school." This sarcasm is of course. a gentleman of the old school." This sarcasm is of course a preliminary to the usual critique of trade union economics.

a gentleman of the old school. This sarcasm is of course a preliminary to the usual critique of trade union economics.

But summing up post-war history, are we not entitled to draw the conclusion that Americans really owe more to the policies of organized labor than its critical will concede?

Comparing our industrial status with that of Europe, it certainly seems that the maintenance of wage rates did not deter our economic recovery, as much as the pessimists predicted back in 1921. Britian's wage defiation does not appear to have helped so much in the recapture of foreign trade.

Garmany's low wage rates do not now appear to be reflected in any such low costs of production as was expected. We more than any other group.

CHICAGO papers of May 2nd stated that Loop and near-the-Loop prop-erties belonging to the Chicago Board of Education have increased in value since 1915 from \$5,718,669 to \$9,509,320, an almost 100% increase.

While this is a splendid testimonial to Chicago's past progress, there is every evidence that the Loop as well as closein business and residential districts will enhance in value even more during the next decade than the past.

Because of Chicago's wonderful geographic location, its diversified industries, and the progressive spirit shown by the many civic improvements, we have for many years specialized on making first mortgage loans on improved Chicago property. Believing that no city in the world offers a safer investment than Chicago properties, we have chosen Loop, Hyde Park and the Near North Side as the best districts in Chicago in which to make our bond issues. This policy guarantees to you the greatest increase in security, while at the same time the mortgage is being reduced.

Many of the most modern business buildings in the Loop and hotels and apartments of the Near North Side, the very center of these tremendous property increases, are security for first mortgage gold bonds offered for sale by the Continental First Mortgage Bond Company. These bonds yield 6½% and 7% interest the highest rate of interest possible terest, the highest rate of interest possible with absolute safety.

\* The following information has been summarized from the letter of Mr. Robert J. Graf, Vice President of the Company:

Company Standard Gas and Electric Company and its operated public utility companies comprise one of the large public utility organizations in the United States, embracing the operation, management and engineering of utility properties. The operated companies furnish electric power and light, gas, and other services in 857 thriving cities and towns in 17 states, including important commercial, financial and industrial centers. The communities served include Minneapolis, Saint Paul, Louisville, Oklahoma City, Muskogee, Pueblo, Sioux Falls, St. Cloud, Casper, Tacoma, Ottumwa, San Diego and Stockton. The territory served has total estimated population of over 2,800,000. Approximately 86% of the combined net earnings of the operated companies is received from the sale of electric energy for power and light, 12% from gas and 2% from miscellaneous services.

Capitalization The Company's capitaliza-tion, after giving effect to present financing, is as follows:

Earnings For the 12 months ended March 31, 1925, after giving effect to present financing, the balance of net revenue available for dividends was more than 3.75 times the annual dividend requirement of \$1,225,000 on \$17,500,000 7% Cumulative Prior Preference Stock, including the present issue, and the net revenue was over 2.3 times the annual interest requirements on total funded debt and the annual dividend requirement on the 7% Cumulative Prior Preference Stock outstanding, including this issue.

Purpose of Issue Proceeds from the sale of this issue of \$5,000,000 7% Cumulative Prior Preference Stock will be used for investment in public utility companies, including \$3,000,000 in Oklahoma Gas and Electric Company.

The best tire Kelly ever built

The New Kelly Way

THE construction of the Flexible Cord is different from that of any other tire. The bead is built in as an integral part of the carcass, making a stronger and yet less rigid construction which also makes possible the use of a flexible tread. The Flexible Cord is sturdier than the former Kelly Cord and at the same time is more pliable. To the car-owner this means a combination of mileage and easy riding that hitherto never has been equaled, either by Kelly tires, or so far as we know, by any others.
